

**Liberty Hall Theatre - Friday February 17<sup>th</sup> 12.30pm**

**INVITATION to the Citywide** Drugs Crisis Campaign, launch of:

## **1. Broad based Drug Alliance initiative**

Citywide emerged from a mass meeting of community activists and local residents which took place in Liberty Hall in 1995. Seventeen years later we are inviting all those interested in finding ways of collaborating to respond to the devastating impact of the continuing drugs crisis, to come along on February 17<sup>th</sup>. The event will bring together people working in community projects, community representatives, trade unions, academics, faith communities, public representatives and community networks.

**We believe it's time to build a broad alliance campaign to put the drugs crisis in our communities back on the political agenda.**

## **2. The Citywide Film**

Filmed during 2010, this project set out to show how drugs have impacted on communities, how those communities have responded, how national drugs strategies developed and how Citywide has worked locally and nationally.

## **3. The Citywide 4<sup>th</sup> Policy Document**

Based on wide consultation with community representatives and projects, Drug Task Forces and others, our new policy document highlights the continuing drugs crisis, it explains its complexity and impacts and it makes practical proposals.

**Join us on February 17th @12.30pm in Liberty Hall Theatre**

*Light lunch / Refreshments will be served following the event*
